**Kodak Offers Solutions for Increasing Productivity through Effective Document Management at ARMA's International Conference and Expo**

ROCHESTER, N.Y., Oct. 20—To succeed in today's tough economic climate, businesses can hardly afford to gamble when it comes to managing critical information. At the 2008 ARMA International Conference and Expo in Las Vegas on Oct. 20-23, records and information management professionals will find valuable document imaging insights and solutions to increase productivity and help decrease costs. Kodak's industry experts will feature product and software demonstrations designed to provide companies with a more efficient and effective document management process.

"Productivity is top of mind for those who are responsible for managing records and information," said Don McMahan, Vice President of Sales, Document Imaging, United States and Canada Region, Kodak's Graphic Communications Group. "Those who attend this year's ARMA International Conference will have the opportunity to spend time with industry experts and colleagues to learn best practices on how to better implement and execute a document management strategy. What's more, they'll learn how Kodak's product and service offerings can have a positive impact on profitability and improving an organization's core business."

During ARMA, Kodak unveils the newest version of Capture Pro Software, v. 1.1. It is the first capture software available from a scanner hardware manufacturer that is compatible with both KODAK and third party Scanners, providing one intuitive graphic user interface for all scanning operations. Additional enhancements, including support for KODAK DIGITAL SCIENCE 3500, 3510 and 3520 Model Scanners and KODAK i800 Series Scanners; new toolbar functionality; added languages; and expanded integration with third party document management systems, further simplify the capture and scanning process.

Kodak will also offer ongoing demonstrations of the following products at booth #311 during Expo hours:

- The KODAK s1740 Capture System

- The KODAK i1860 Scanner and KODAK i780 Scanner, both featuring KODAK Capture Pro Software
- The KODAK Scan Station 100 Plus
- The KODAK i1320 Scanner featuring **ATALASOFT** Software for directly scanning to MICROSOFT OFFICE SHARPOINT SERVER
- The KODAK i660 Scanner with Capture Pro Software

See the attached booth schedule for more information on each of the product and software demonstrations taking place at ARMA.

### **About Kodak**

As the world's foremost imaging innovator, Kodak helps consumers, businesses, and creative professionals unleash the power of pictures and printing to enrich their lives.

### Kodak's Booth Schedule For ARMA 2008

<b><u>Exhibit Date/Time</u></b>	
Monday, Oct. 20	11 a.m.–4:30 p.m. 5:30 p.m.–8 p.m. Welcome Party
Tuesday, Oct. 21	9 a.m.–5:30 p.m.
Wednesday, Oct. 22	9 a.m.– 3:30 p.m.
<b>Booth # 311</b>	
<b>KODAK s1740 Capture System</b>  	<p>A fully integrated high speed document scanner with inline document separation capability to eliminate most manual pre and post sorting. Also features powerful software that allows sorting, labeling and assigning of archival image output types while documents are still in the scanner. Typical applications include centralized batch scanning for customer service, magazine subscriptions, payment and invoice processing, and mailroom operations.</p>
<b>KODAK i1860 Scanner with Capture Pro Software</b>  	<p>One of Kodak's fastest production scanners, the i1860 captures images at up to 200 pages per minute. It also offers a variety of ergonomic features, including a user height adjustable base to maximize productivity while either sitting or standing. With KODAK Capture Pro Software, the i1860 offers a fast, intuitive solution for optimizing capture workflow.</p>
<b>KODAK i780 Scanner with Capture Pro Software</b>  	<p>Offering excellent speed and image quality, the i780 is the ideal choice for forms processing operations. With capture speeds up to 130 pages per minute and image resolution up to 300 dots per inch, the i780's performance raises the bar for mid volume production scanning standards. Coupled with KODAK Capture Pro Software, the i780 offers even more useful production features, including compatibility with both third party and KODAK Scanners.</p>
<b>KODAK i1320 Scanner with ATALASOFT Software</b>	<p>The duplex i1320 scanner delivers competitive levels of capability and affordability available</p>

	<p>for products in this category. Ease of use, versatility and image quality are all offered through Perfect Page image processing and Smart Touch features. With ATALASOFT Software, the i1320 can scan documents directly to MICROSOFT OFFICE SHAREPOINT SERVER with a single touch, for easy collaboration.</p>
<p>KODAK i660 Scanner with KODAK Capture Pro Software</p> 	<p>The award-winning i600 Series Scanners deliver productivity, flexibility and reliability with innovations like SurePath technology paper handling, Perfect Page Image Processing Technology Scanning, three independent ultrasonic multifeed detection sensors and automatic color detection. Adding Capture Pro Software provides an intuitive graphic interface, easy to use features and compatibility with third party and KODAK Scanners.</p>
<p>KODAK Scan Station 100 Plus</p> 	<p>With inbound/outbound fax capability and enhanced security, ease of use, system administration and ergonomic features, the latest version of the popular KODAK Scan Station is a powerful desktop solution for any business.</p>
